DETAILED ACTION

Allowable Subject Matter

1. Claims 1-39 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter. In regards to Claims 1-39 the prior art record states Lee et al (US 5,570,340) disclosing a recording medium having a first and second data units and a first data unit and descriptor table (Figure 3 shows the first data 18 and second data 20 as further described Column 6 Lines 42-50). It is further taught by Ohno et al (US 5,512,938) a system wherein the recorded first and second descriptor tables are shown being recorded (Column 9 Lines 10+). Furthermore, the prior art of record further recites Otomo et al (US 6,532,335) to further teach the ability to store and record first and second program descriptor tables that provide links between the two stored tables (Figure 13). However, the prior art of record fails to disclose, teach, or suggest the following limitation:

a first program descriptor table and a second program descriptor table in which

information on one or more data units forming respective programs is stored in a program

descriptor of a corresponding program in the form of information on respective data unit

descriptors, wherein;

the first and second program descriptor tables are recorded independently of the

first and second data unit descriptor tables and the first and second data units, and

the information on the first data units, which are to be reproduced after the first

data units are linked to the second data units, is included in the program descriptor of the

second program descriptor table.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
